Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I used to take Nadolol which became
unavailable. Then I was given Provera which put
me in depression. I now once again live a normal
life only because of my prescription compounded
for me by a specializing pharmacy out of state.
I object to the M.O.U. on the basis this limitation
would once again compromise my quality of
life by restricting my ability to obtain meds
my doctor has prescribed. These meds are
not available from commercial pharmaceutical
manufacturers. I believe the loss of family and
a job from depression should not happen more
than once in a life.
